## Education

Oct, 2009 - Oct, 2013

### Bachelor of Sciences, B.Sc. Financial Management

Ss. Cyril and Methodius University in  
Skopje – Faculty of Economics

Oct, 2021 - Nov, 2022

### Associate degree for Frontend Developer

Brainster Education Center Skopje

## Expertise

- HTML
- CSS
  - Scss
  - Tailwind, Bootstrap, MaterialUi
- JavaScript
- ReactJs
- Typescript
- Version Control (GitHub, GitLab)
- Sap (Finance and HR)
- Bubble.io
- No code backend platforms: Firebase and Xano

# Irena Karamachoska

## Frontend Developer

Eager frontend developer with a keen attention to detail and a results-oriented approach. As a frontend developer, my primary focus is on creating visually appealing, user-friendly, and responsive websites. I specialize in translating design concepts into functional and interactive web interfaces. My expertise lies in utilizing HTML, CSS, and Typescript to build intuitive user experiences.

My recent role as a frontend developer has been centered around developing a digital investment and trading platform for nature-based solutions. This project allowed me to delve deep into the technical aspects of constructing such a system. I had the opportunity to apply a wide range of frontend technologies and frameworks to create an intuitive and user-friendly interface.

My energy and efforts are mostly focused on upgrading my skills for React which I consider it as a way of expressing myself. However, I remain open and enthusiastic about acquiring new technologies and expanding my skill set.

By continuously upgrading my abilities and staying ahead of industry trends, I strive to deliver cutting-edge front-end solutions that exceed client expectations and drive meaningful impact. In addition to my technical skills I also possess strong communication and collaboration abilities, which are essential for working effectively within a team.

### Responsibilities as Frontend Developer

- Responsible for developing websites, mobile applications, and landing pages from conceptualization to deployment, ensuring a seamless user experience.
- Collaborate closely with cross-functional teams, contributing to the design and implementation of captivating user interfaces.
- Writing clean, maintainable code and ensure cross-browser compatibility.
- Utilize modern techniques, including CSS preprocessor SCSS and CSS frameworks such as Bootstrap, Tailwind, and MaterialUI, to optimize websites for various devices and screen sizes.
- Actively collaborate with backend developers to seamlessly integrate frontend components with backend systems, ensuring smooth functionality and data flow.
- Create modular and reusable code to enhance efficiency and maintainability across projects.
- Supervise software workflow management using version control systems such as GitLab, and GitHub to track changes and collaborate effectively with the development team.
- Conduct thorough testing of websites during the development process, ensuring usability and identifying and resolving bugs promptly.
- Collaborate with product and design teams to implement new features and enhancements, translating requirements into functional frontend components.
- Working in an Agile work environment, actively participating in defining project goals and prioritizing deliverables.
- Contributing to defining project objectives and prioritizing tasks during sprint planning. Actively engaged in sprint retrospectives to identify areas for improvement and implement changes that enhance productivity and quality.
- Contributing to the continuous improvement of development workflows and practices through suggestions and implementation of automation or tools.
- Staying up-to-date with the latest frontend technologies, frameworks, and industry trends, and actively applying them to improve development processes and enhance user experiences.
- Participating in code reviews and providing constructive feedback to ensure code quality and adherence to coding standards.

## Languages

---

Macedonian - Native

English - Highly proficient

German - level B1

## Courses

---

Feb, 2022

**React - the complete guide**

Udemy

Dec, 2022

**Understanding Typescript**

Udemy

## Hobbies

---

- Experimenting with making music in Ableton live

## Professional experience

**Dec, 2022- present- Frontend Developer**

goodcarbon- Berlin, Germany

Investment & Trading Platform for Nature-based Solutions

**Nov, 2021 - Dec, 2022 - Frontend Developer**

Ryaktive Software Development Agency - Skopje, Macedonia

**May, 2019 - Feb, 2021 - Accountant and Human Resources assistant**

ODW-ELEKTRIK - Struga, Macedonia, foreign subsidiary of

ODW-ELEKTRIK Steinau an der Straße, Germany

**May, 2018 - May, 2019 - Loan officer and Debt collector officer**

Financial Company FD Moneymax - Ohrid, Macedonia

**Jul, 2014 - May, 2019 - Financial Manager**

Organisation for Independence Cultural Activism "INCA" -

Struga, Macedonia

**Before 2014 -**

Experimenting in diverse roles across the retail sector, including coffee shop, jewelry shop, and children toys shop.
